

Marketing 2025
Promotional
Recap

Event Overview

Homefest was held on Saturday, September 20, 2025, as a free community event designed to bring our Church family and community neighbors together.

The primary call to action was “Attend the event”, with a secondary message that registration was recommended but not required.

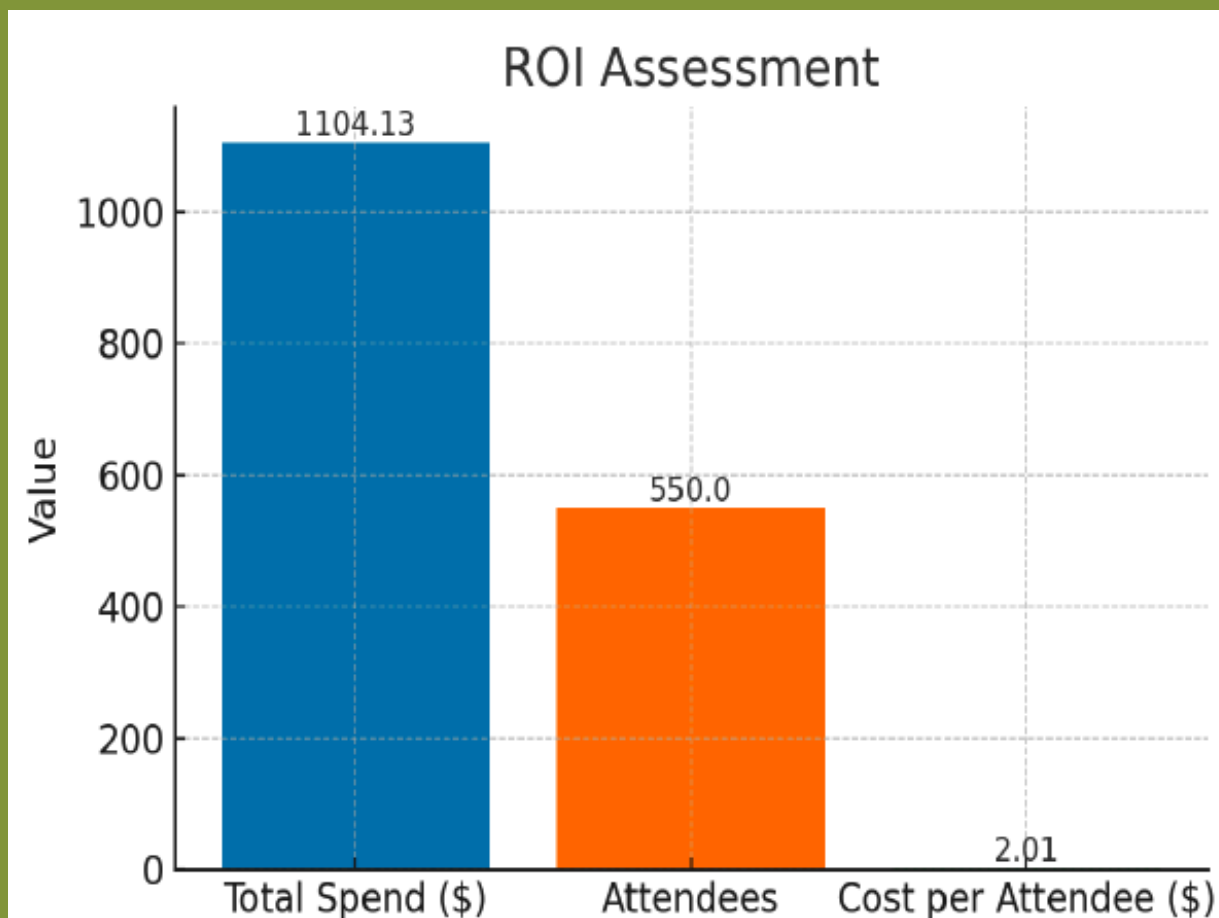

- Total CCB Registrations: 425
- Onsite Registrations: 45 (via text Carrie state total 470)
- Total Attendance: 550 (estimated head count)

Promotional Cost Efficiency

- Total Promotional Cost: \$1,104.13
- Total Attendance: 470 = Promotional Cost per Attendee: \$2.35
- Total Attendance: 550 = Promotional Cost per Attendee: \$2.01

ROI Assessment

- At just over \$2 per attendee, the promotional investment was very cost-efficient for a community event of this scale.
- Digital ads (especially Video Ad #2) delivered the highest ROI, producing low-cost clicks and strong conversion.
- Print placements, while helpful for visibility, had a higher cost relative to measurable impact compared to digital channels.

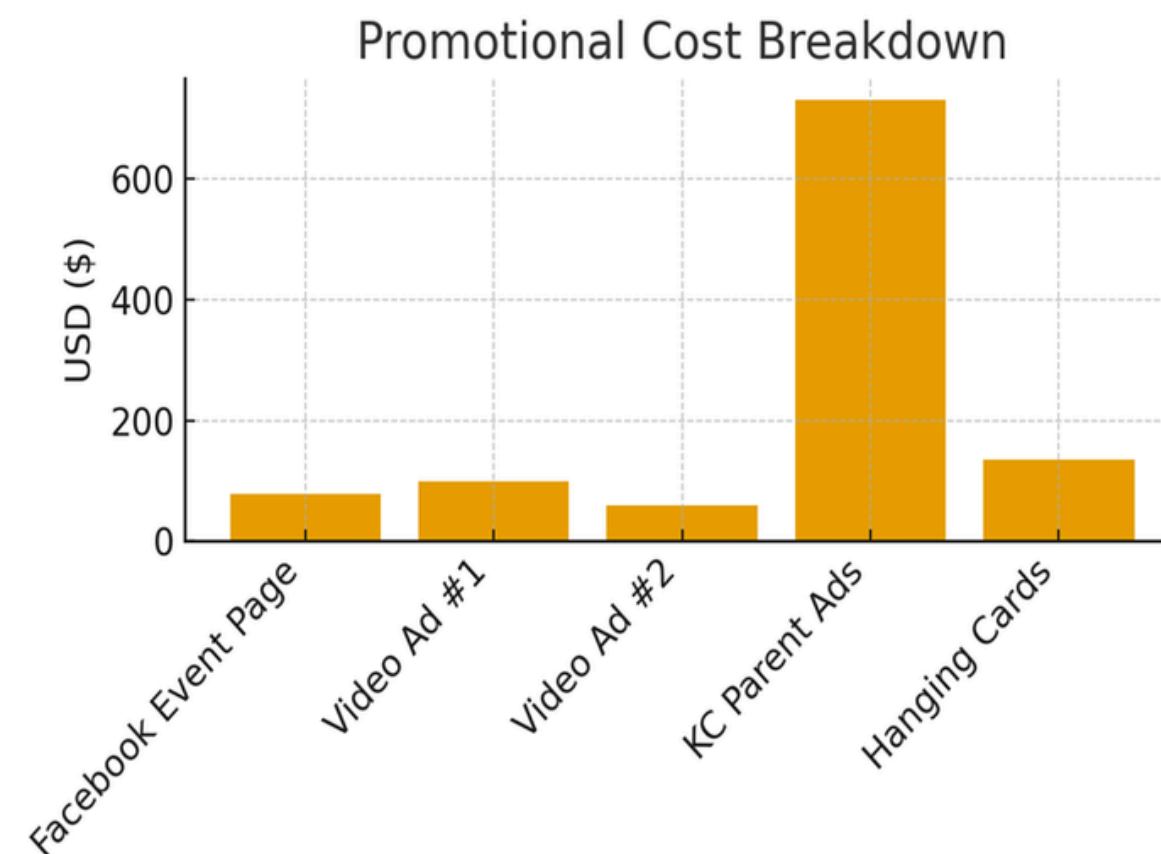

Social Media Performance

- FB Event : Cost \$77.99
- FB Video #1 : Cost \$99.97
- FB Video #2 : Cost \$59.92

Promotional Materials

- Hanging Cards: 300 distributed (\$135.00)
- Flyers: Preschool OP & SKC

- KC Parent Ads: July, August, September (\$731.25)
- Life at Colonial Card & E-News: July, August, September

How did you hear about Homefest?” responses (from CCB):

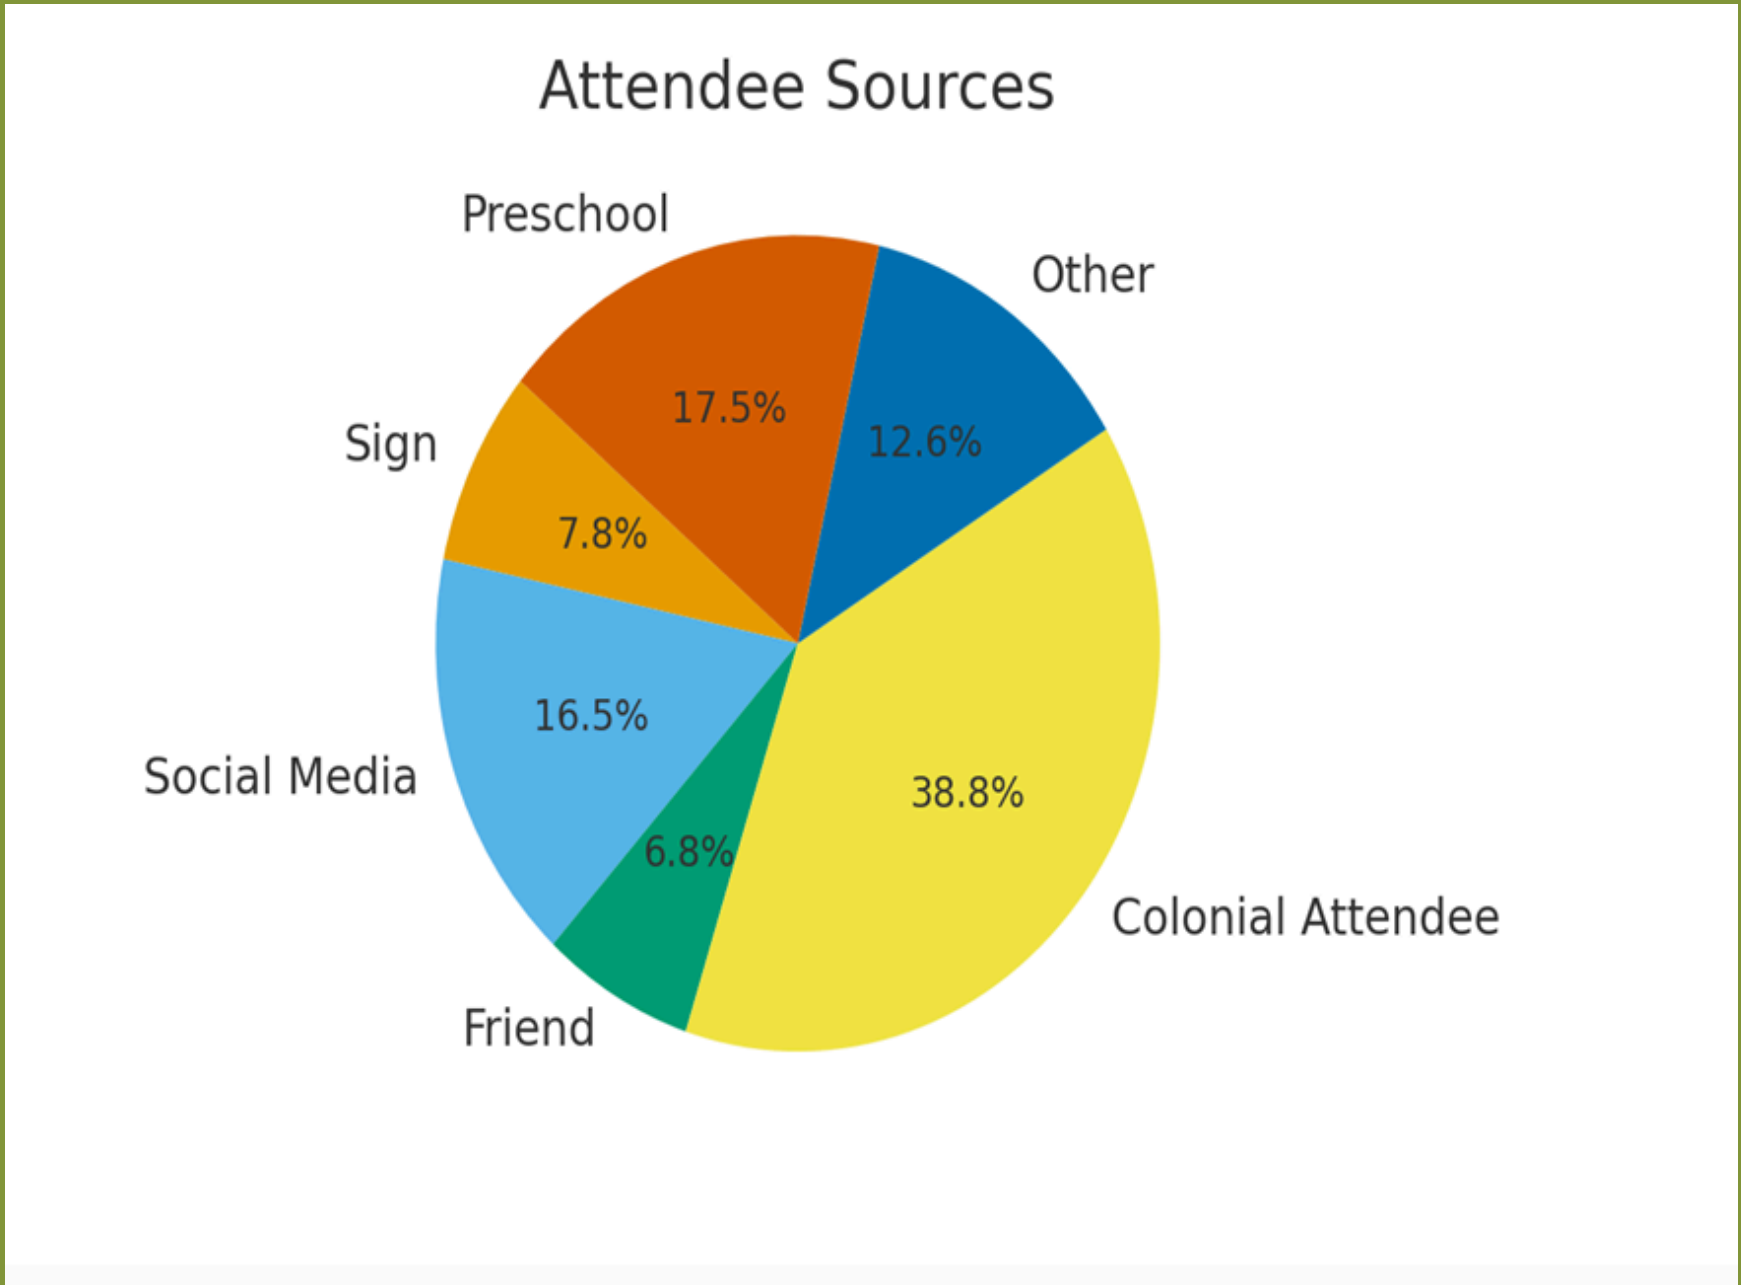

Total CCB Registrations: 425

- I saw a sign: 7.8%
- Online/Social Media: 16.5%
- A friend invited me: 6.8%
- I attend Colonial: 38.8%
- Other: 12.6%
- Through Colonial Preschool: 17.5%

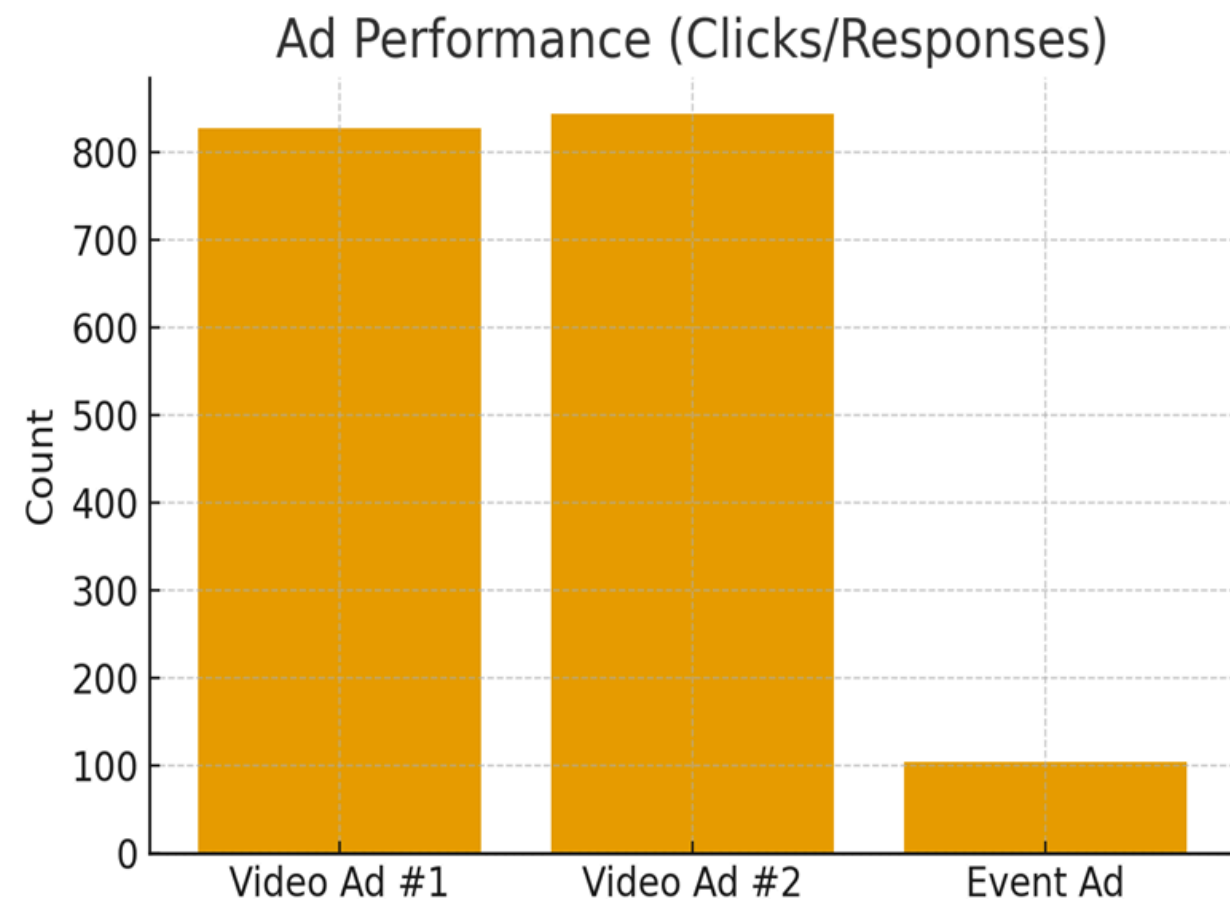

Observations & Insights

- Colonial attendees (38.8%) were the largest source of awareness, but social media (16.5%) and Preschool families (17.5%) played a strong role.
- Print placements expanded visibility in family-focused outlets but were less cost-efficient than digital.
- Onsite stats from the “How did you hear about this event?” cards are still pending (Carrie will provide)

Observations & Insights

Attendance exceeded registration, with 550 guests compared to 470 total sign-ups

Facebook Ads produced strong reach and low-cost engagement

Facebook Ads produced strong reach and low-cost engagement.

- Video #1(Pastor Tami) Generated 12,671 video views with 827 link clicks at \$0.12 per click, showing strong cost efficiency.
- Video #1 - Engagement skewed heavily toward non-followers (95%), which indicates the ad effectively reached new audiences beyond Colonial's existing network.
- Video #1 The strongest demographic response came from men 25–34 (60% of clicks) and women 35–44 (39% of clicks). This shows the ad resonated well with both young men and mid-aged women.
- Video Ad #2 resonated most with women 35-44 (729) .

Video Ad #1

Facebook Ads

- – Pastor Tami (Aug 9–Sept. 20)
 - video views: 15,456
 - Followers: Organic 5% vs Ads 95%
 - Link clicks: 827 (\$0.12 per click)
 - Audience: 95% non-followers, 5% followers
 - Top engagement: 63% Men 25–34 (500 clicks), 36% Women 35–44 (320 clicks)

Instagram reach: 609 views (66% non-followers, 34% followers)

Video Ad #2

- – Women's Focus (Aug 15 - Sept. 20)
 - Video views: 9,713 video views
 - Followers: Organic 6% vs Ads 94%
 - Link clicks: 843 (\$0.07 per click)
 - Top engagement: Women 35–44 (729 clicks), Women 25–34 (175 clicks)
 - Instagram reach: 419 views (59% non-followers, 41% followers)

Social Media Performance

Facebook Event Page

Facebook Event Page (Launched July 27)

- Cost: Engagement: 9 people going, 115 interested

Event Ad (Aug–Sept)

- Engagement: +20 (up 11.1% vs. previous 7 days)
- Event responses: 104 at \$0.75 per response
- Audience: Women 35–44 (70%), Men/Women 25–34 (30%)

Instagram Performance

- Reach remained smaller than Facebook, but Instagram provided meaningful engagement with 609 views for Video 1 and 419 views for Video 2.
- Non-followers made up 66% (Video 1) and 59% (Video 2) of engagement, confirming Instagram also extended beyond Colonial's immediate audience.
- Instagram results suggest an opportunity to refine content especially visuals and messaging since engagement rates were lower compared to Facebook despite reaching many non-followers.

Bitly Performance

- Total Engagements: 532
- Engagement Timeline: Aug – Sept 20, with the largest spike on Sept 19–20
- Referrers:
 - Direct: 350 (88%)
 - Facebook: 32
 - Other: 11
 - LinkedIn: 3
 - Google: 2

Conversion Ratios

- Registrations from Link Clicks: $470 / 532 = 88.3\%$

Link Performance

- Bitly performance showed strong direct engagement (88%) with a large spike just before the event.
- Conversion from link clicks to registrations was 88.3%, and suggesting both organic and walk-in growth.
- Colonial attendees (38.8%) were the largest source of awareness, but social media (16.5%) and Preschool families (17.5%) played a strong role.
